Press quotes:

“Not all rock bands have a soulful vocalist, slamming guitar player, and a tight, focused drummer. Paulo Mendonca has it all and then some, plus meaningful and moving lyrics. You can tell right away he’s been producing other artists by the quality of his own band. Not all of their music is funk flavored. Another single from their new album that Paulo slipped to me, “Love and Unity,” is completely rock based with no funk feel. And it is beautiful. I’m not at liberty to share it but you’ll have access to it soon enough.”
